#### SYSTEMIC/FAMILY CONSTELLATIONS with Jonine Lee Gabay (19th - 22nd)

“The Knowing Field has been a phenomenon of Family Constellations that is difficult to understand. The term “Knowing field” seems to be the most appropriate term for describing the field phenomena which forms on and in the representatives and guides the process to a resolution and an acceptance of “what is”.

“On the one hand, it can be seen as a poetic term, poetry being the most accurate language at the level of the soul. On the other hand, “Knowing field” is inspired by Rupert Sheldrake’s findings on morphogenic fields and the extended mind, as well as quantum physics and its surprising discoveries regarding the transmission of information and knowledge through quantum fields”

#### CENTRED THERAPY with Nic Morrey (24th - 27th)

For the 11 anniversary, this retreat will delve deeper into the application of centred therapy for healing ourselves and those we care for in practice. You will receive a module on retreat to accompany our 2 weeks of development toward healing in relationship. Topics range from characterological study, intelligence lines of development, dialectical polarity work, working with BPD & NPD, when to use what therapy, micro-skills for relational depth, how to balance distance and closeness, languages of love, exit strategies to intimacy, finding your own therapy style, effective communication when the heat is on, hot monogamy, attachment styles, understanding the 7 instinctual health rhythms, addiction, working with the big 4 emotions (Shame, Anger, Grief, Fear), the origins of affect, dream work, working with archetypes and healing genealogical wounds.
